

TULSI PARMAR

[Portfolio](#)
parmartulsi222@gmail.com

Motivated and detail-oriented **Full-Stack Developer (MERN Stack)** with a strong foundation in **MongoDB, Express.js, React, and Node.js**. Passionate about building efficient, user-friendly web applications with a focus on backend development and API integration. Developed **HireHub**, a job-seeking platform with features like job posting, job saving, and profile management. Adept at problem-solving, self-learning, and collaborating in team environments. Seeking an entry-level opportunity to apply my skills and grow as a developer.

SKILLS

Frontend : HTML,CSS , Javascript , React.Js.

Backend:NodeJs,ExpressJs.

Database:SQL,MongoDb.

Version Control:Git & GitHub

PROJECTS

1. HireHub – Job-Seeking Web Application.

Developed a full-stack job-seeking platform using the **MERN** stack, offering a comprehensive solution for both job seekers and employers. Key features include:

- Users can create and update detailed profiles, including personal information, experience, and skills.
- Employers can post jobs with specific requirements and descriptions.
- Email verification and forgot password feature.
- Job seekers can easily apply for positions directly through the platform.
- Integrated interactive elements like smooth scrolling, animations using **GSAP**.

2. Portfolio -React.js

Designed and developed a fully responsive portfolio website to showcase my skills, projects, and experience.

Live Demo: [tulsi-parmar](https://tulsi-parmar.github.io)

3. Expense Tracker – React Application.

Developed an expense tracking application using React, designed to help users manage their finances

- Users can add expenses with detailed descriptions, including the name of the expense, amount, and category (income or Outcome).
- The application automatically calculates and displays the total balance, showing the sum of all income and expenses.

4. Quiz App – React Application.

Created a dynamic quiz application using React, featuring an engaging and visually appealing user interface. Key features include:

- Provides detailed results for each quiz, including correct answers, incorrect answers, and skipped questions.
-
